

The Twins Universal  
Business Company Limited

# Company Profile

# ABOUT US

Incorporated in 2009. For a decade the Company did several businesses in general supplies and procurement. With its quality furniture and excellent service concept—the company commissioned a study on furniture making and house interior and exterior designing in the Lake Zone of Tanzania—the findings of the study demonstrated that Tanzania imports most of office furniture from other countries, China in particular.

One of the reasons is because the locally made furniture do not meet the standards that the customers want. The other part of the findings show that many people build nice houses but the finishing is poorly done

Base on these findings The Twins Management established the furniture unit to tackle this by providing state of art equipments and experienced personnel to align with the company vision.

Renovation we mean restoring something to its original state while Remodeling we mean creating something new.

We are a company involved in the repair, restoration, stripping and refinishing of all types of fine quality furniture, antiques to residential housing

At The Twins we provide advice, technical recommendations designs and style in order to satisfy client's needs, and use their budget more efficiently.

## CIVIL AND BUILDING CONTRACTOR

We have a team of professionals who have years of experience in

- Surveying and Architectures designs procedures
- Bills taking off
- Construction skills
- Finishing and decorations
- Exterior and Interior designs and applied

Construction industry is an industrial branch of manufacturing and trade related to building, repairing, renovating, and maintaining infrastructures. At The Twins, we consider our expertise in three major construction segments. First, construction of buildings including the building of residential, industrial, commercial, and second other buildings specific to the client or customer needs. Third, heavy and civil engineering including sewers, roads, highways, bridges, tunnels, and other projects.

In this area, The Twins is in the business of conducting both civil and building engineering works ranging from erecting buildings and construction of physical infrastructure like roads and bridges, harbours and under water projects.

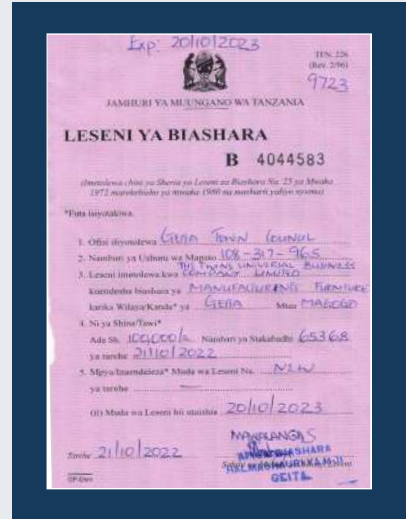

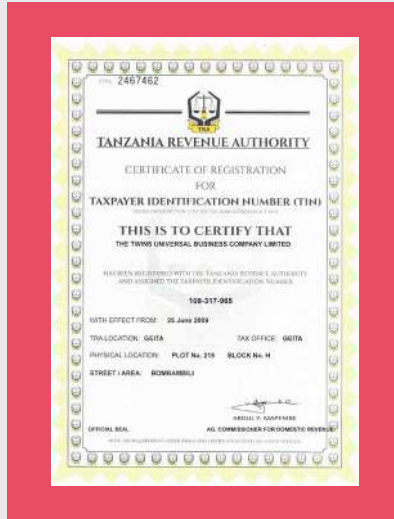

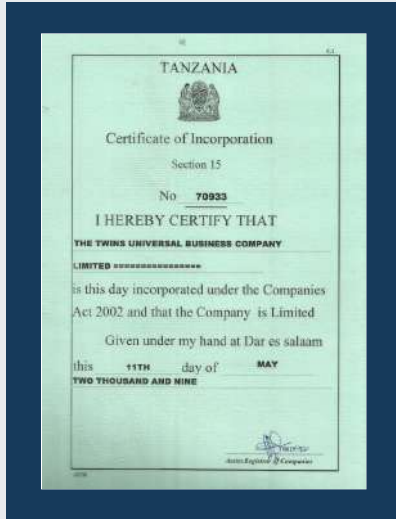

## GENERAL SUPPLIES AND SERVICES

The Twins specializes in the supply of various types of products and or supplies to individuals, companies both local and international, NGOs and mainly specialized in supply of both construction and mining materials and equipment--ranging from small scale to large scale miners.

Additionally, The Twins does supplies of human resources (labour), office stationery, safety materials, office electronics, electrical, building materials, cleaning equipment, plumbing, Textile and Garment, Car Hire, air conditioning and many more others according to a client or customer needs and or requirements.
